GENERAL INSTRUCTION

The Alberta Fuel Tax Act allows certain types of operations to purchase marked gasoline and diesel fuel exempt of tax. These operations are either commercial entities using unlicensed vehicles and equipment off the province's road systems, or individuals using heating oil for heating purposes. Vehicles requiring a licence must use tax-paid clear fuel. To qualify for this exemption you must complete this form and submit it to Tax and Revenue Administration at the address or fax number noted at the top of the application.

If your operation qualifies for the tax exemption, Tax and Revenue Administration will disclose your eligibility information to the fuel sellers that you have listed in question 10. This disclosure will be limited to: legal name, operating name, TEFU identification number, telephone number, postal code, eligibility status and effective date. This information will also be disclosed to other fuel sellers that sell tax-exempt marked fuel. Invoices from fuel sellers must also use the legal name of your business.
